

5-Minute Research Question Presentation

PA 604: Methods of Analysis in Public and Urban Affairs (Fall 2023)

5 points

Due: September 12, 2023

Overview:

For this assignment, each student will be given up to 5 minutes to present their research question to the rest of the class. Think of this presentation as a super-brief TED Talk. After you present, we'll have 5 minutes for clarifying questions/suggestions to help you refine your research question.

Prior to our class meeting during the week of September 11–15, 2023, be sure to share your slide (via Google Slides) in the URL submission for this assignment.

Requirements

You will use a **maximum of one slide**. Feel free to organize/design the slide as you see fit. Make sure to include anything you think is pertinent, but do not fill the slide with text and do not use full sentences. When presenting, be sure to include and discuss the following:

- Introduce yourself and your research interest(s)
- What is the research question? (include in slide)
- What are the independent and dependent variables?
- Why is this an important question (personally and practically)?

Grading

You will be graded on whether or not the above items are addressed.
